## PLEASE READ INSTRUCTIONS BEFORE BEGINNING INSTALLATION

### **\*\*\*BEFORE INSTALLING\*\*\***

**Remove any lighting or wiring that will interfere with installation of Winch Guard Tube.**

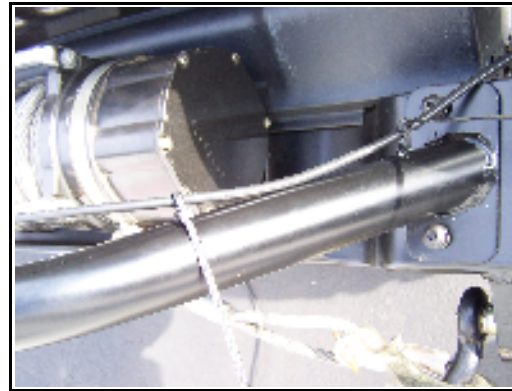

### **Winch Guard Tube**

Step 1 - Remove plastic plugs if any are covering holes for 3/8" Allen Bolts.

Step 2 - Place Winch Guard Tube onto bumper and align the slots with the holes in bumper.

Step 3 - Install all four 3/8" allen bolts and flat washers, then tighten to 20 ft. lbs torque.

Step 4 - Assemble any lighting to light tabs per light manufactureres specifications. If desired, you may run wires down the sides of the Winch Guard Tube and secure with wire ties through clips. (See Figure)

Send your OFFROAD pictures to [pics@HylinesOffroad.com](mailto:pics@HylinesOffroad.com) . If we choose any one of your pictures to be used on our website, We send you a FREE Hylines Offroad T-Shirt.

### **Attention**

Installation instructions provided must be read and followed exactly when installing product. Failure to do so could potentially result in injury or death of any occupants in the vehicle. **WEAR SEAT BELTS AT ALL TIMES WHEN DRIVING!**

Though our products are rugged, they are primarily designed and built to enhance the appearance of the vehicle and will not protect from death or injury in the event of an accident. Adhere to all vehicle manufacturers specifications
